

ISO 9001:2015

Quality Management Systems (Live)

COURSE SYNOPSIS

ISO 9001:2015

Quality Management Systems (Live)

Introduction:

The course is designed for those who have limited or no knowledge of ISO 9001 and wish to gain insight to the management arrangements needed to satisfy ISO 9001:2015.

The clauses of the standard are interpreted followed by an explanation of the management arrangements that can be used to achieve conformance. Particular emphasis is provided on Strategic analysis and the context of the organisation, risk based thinking and business process management. Where appropriate, implementation tools are discussed and examples presented.

Course outcomes:

- Comprehensive understanding of quality management concepts, principles and the requirements of the ISO 9000:2015 series of standards.
- Understanding of some useful tools and techniques for implementation.

Who should attend:

- This course builds a solid foundation for individuals currently working in, or wanting to develop themselves into, a quality management role.
- Anyone in a management or supervisory role that is responsible for processes or systems within the scope of an ISO 9001 quality management system.

Benefits:

- Comprehensive knowledge of the most important elements of quality management.
- Detailed understanding of the requirements of ISO 9001:2015.
- Facilitators are all extensively experienced in both implementing and auditing quality management systems.
- Material is developed by registered lead auditors serving on ISO working committees, input to course design is also from literature review of ISO observing member bodies.
- Clearly spoken, easy to understand language.
- Live online presentations, in the format of a webinar, allow for the course to be taken from any location and questions can still be asked on-the-fly.

Information delivered in presentations is supplemented by written notes, pro-forma templates, registers and plans.

Learning modules and assessment is conducted in five segments of approximately 3 hours per day over 5 days. This duration includes the delivery of presentations, participation in exercises, feedback and interactive discussions.

A facilitator interacts with the class online to assess teamwork, progress of candidates, and answer questions. The class is also able to collaborate online in a secure environment under the guidance of the facilitator.

The ISO 9001:2015 standard is not provided as part of the courseware and should therefore be obtained from your national standards body or from www.iso.org

Learning is reinforced with assessment derived from each module. A 70% aggregate or more, will gain a certificate of successful completion.
